

Dina Bush
Educational Philosophy

My role as a Catholic School teacher is to provide a loving and nurturing environment that is always Christ centered. My goal is to provide an environment for my students where every student feels safe and loved and can learn to their potential. To be effective in my teaching I must always keep Christ in my classroom and daily life and this must be present in all I say and do. I must not only speak the gospel but live it as well. As a child's teacher it is my responsibility to provide all of this to my students. Since I do teach in a younger grade level it is my responsibility to provide a foundation of a life lived with Christ to my students.
