*St. Anastasia Summer Math and Reading
For Students Entering Fourth Grade*

Dear Parents and Students,

I am so excited to meet you and your children this August! In order to maintain academic success, we must continue to learn, practice, and review, even over the summer. By taking time to review and practice essential math skills over the summer, students will create more opportunities to find success the following year, while preventing summer learning loss.

- This summer's math assignment is a pencil and paper packet. Please have your child complete this prior to the first day of school. This packet will be corrected for accuracy and the grade will be counted as a quiz in the first quarter. Students must show their work to get credit, additional pages (i.e scrap paper) may be attached if needed.*

- Reading: every student will read 2 books per month over the summer= 4 books and take an AR test on each book (four AR tests total). This will be counted as one reading quiz grade.*

If you have any questions please email me at vpicardi@sta.school. I look forward to meeting you all and seeing your child's smiling faces this August!

Sincerely,

Valerie Picardi and Daniela Arteaga
