### Personal Educational Philosophy

#### Bigger purpose of education

We are called to live in the truth. The purpose of education is to invite students to seek the truth in whatever subject area they are involved. My responsibility is to model the truth in and out of the classroom and to be an authentic witness of the truth. An effective teacher listens, encourages, corrects and challenges students in love. Students have a right to the fullness of truth, not in mutilated, falsified or diminished form, but whole and entire, in all its rigor and vigor.
